Document Revisions

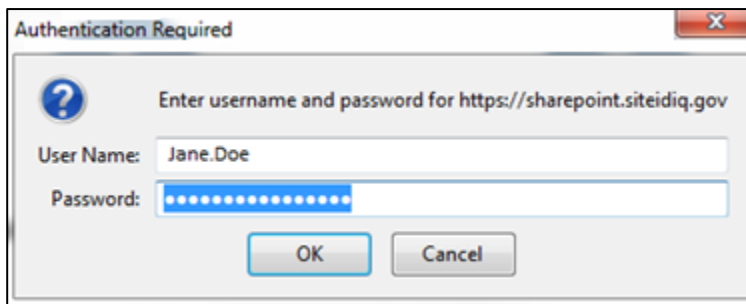

Revision Date	Revision Description	Revision
4/28/2016	Revised Delete a PPR section. This feature has been removed/disabled in SharePoint for vendors. Updated verbiage.	1
7/11/2016	Updated 'US Locations – By Group' table in Appendix C to correct inconsistency with E-SITE PPR template. Quantico, VA should be in Group 3, not Group 7. Revised E-SITE PPR template accordingly.	2

Log in to SHAREPOINT

1. Go to <https://sharepoint.siteidiq.gov>
2. Enter your SharePoint credentials at the login window:

User Name: [login name]

Password: [SharePoint password]

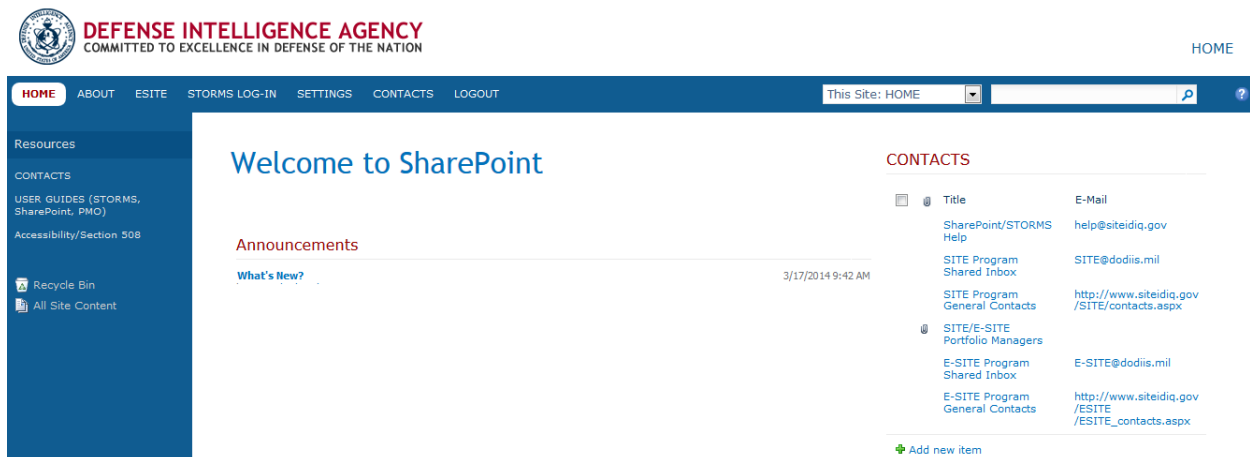

An "Authentication Required" dialog box with a question mark icon. The text inside says "Enter username and password for https://sharepoint.siteidiq.gov". There are two input fields: "User Name:" with the text "Jane.Doe" and "Password:" with masked characters. At the bottom are "OK" and "Cancel" buttons.

3. Click **OK**.

What will you see?

The default Home page is "Welcome to SharePoint". The page will look similar to the figure below.

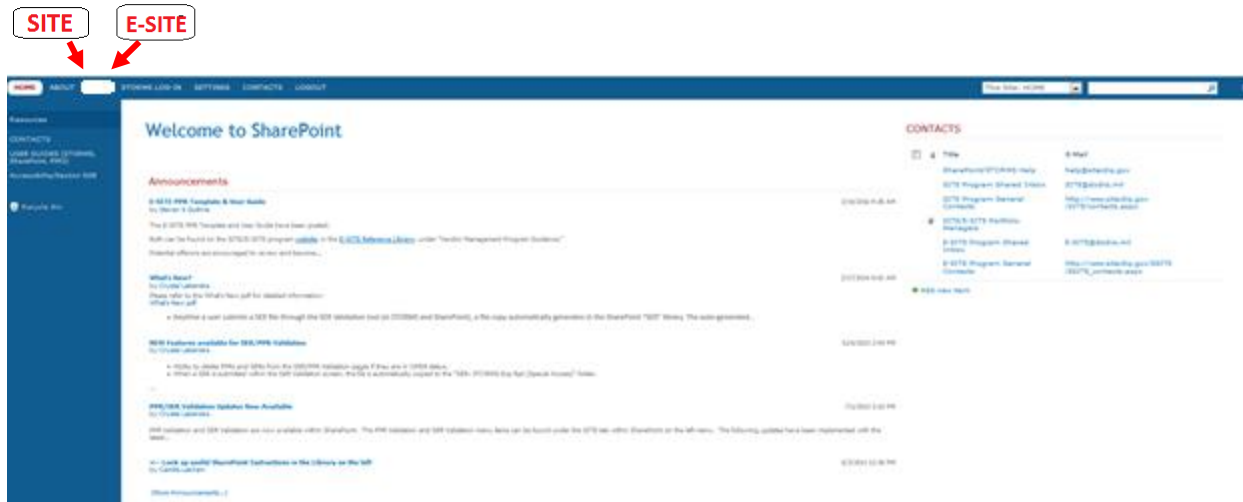

A screenshot of the SharePoint Home page for the Defense Intelligence Agency. The page has a blue header with the agency logo and name. Below the header is a navigation bar with links like HOME, ABOUT, ESITE, etc. The main content area is titled "Welcome to SharePoint" and includes sections for "Announcements" and "What's New?". On the right, there is a "CONTACTS" section with a table of contact information.

Title	E-Mail
SharePoint/STORMS Help	help@siteidiq.gov
SITE Program Shared Inbox	SITE@dodis.mil
SITE Program General Contacts	http://www.siteidiq.gov/SITE/contacts.aspx

Contract Vehicle Home Page

The Contract Vehicle(s) that you are assigned to will appear in the top menu.

From the top menu, select the appropriate Contract Vehicle (ex. SITE, E-SITE) page to view.

E-SITE PPR Template

You must use the E-SITE approved PPR template.

The PPR file is an MS Excel 2007 or 2010 structured file. The PPR file name is composed of three parts preceding the file extension: the Vendor's IDIQ contract number, the Task Order Request for Proposal (RFP) number, and the E-SITE STORMS file type "PPR". Underscores (" _ ") are used for separators between each part preceding the Excel file extension (either ".xlsx" or ".xls"). The format is defined as follows:

[Vendor's E-SITE IDIQ Contract #] + " _ " + [Task Order RFP #] + " _PPR" + [.File Type Extension]

This can be expressed simply as: IDIQ #_RFP #_PPR.xlsx (or .xls)

An example name is: **HHM402-15-D-00XX_HHM402-15-R-XXXX_PPR.xlsx** where HHM402-15-D-00XX represents an E-SITE IDIQ contract, HHM402-15-R-XXXX is the Task Order RFP number, "PPR" defines the E-SITE STORMS file format, and ".xlsx" is an Excel 2010 file type.

Note: A PPR file name **MUST** not contain an apostrophe (') or the file will not process within STORMS.

Proposal Spreadsheets Naming Convention

The names of the two spreadsheets contained within the proposal file are: **“TO_Labor”** and **“TO_Non-Labor”**. Both spreadsheets must be contained within the file and the names of the spreadsheets must be labeled exactly as defined (see figure below).

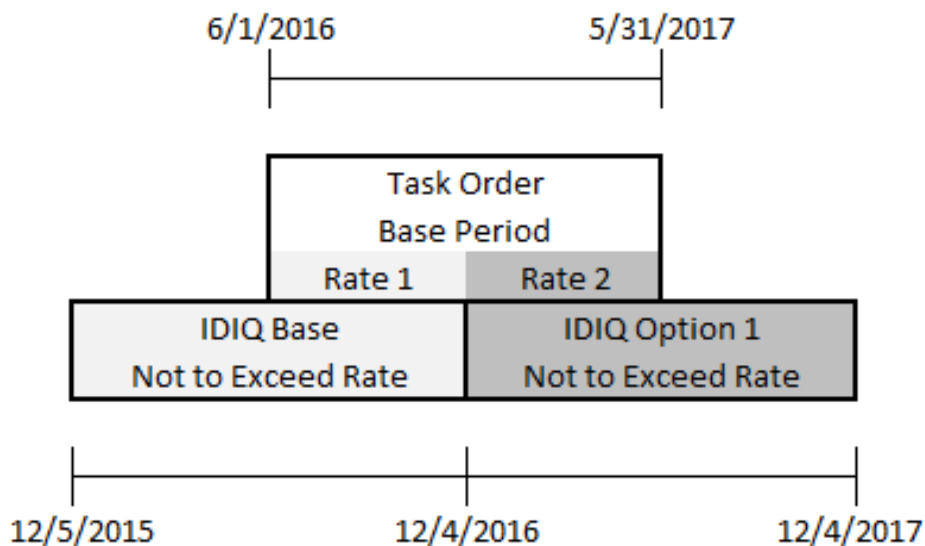

The **“TO_Labor”** spreadsheet is used to submit the transactions for the proposed labor price and/or cost information (e.g., labor categories, rates, levels of effort, etc.). The **“TO_Non-Labor”** spreadsheet is used to submit the transactions that contain all the essential non-labor price and/or cost information being proposed.

Other spreadsheets can be created in the file to assist Vendors during proposal preparation. These spreadsheets are ignored by STORMS and have no adverse effect during processing. The order of spreadsheets within the file does not matter.

The specific transaction formats for the **“TO_Labor”** and **“TO_Non-Labor”** spreadsheets are defined in the next two sections.

TO_Labor Spreadsheet (Labor Transaction Formats)

The **“TO_Labor”** spreadsheet contains the set of data which describes the bidder’s proposed labor price and/or costs for each Task Order period, Contract Type (Cost Plus, Firm Fixed Price, Labor Hour and Time & Materials), CLIN, geographical location, and work facility. Because most Task Order Periods of Performance (PoP) straddle two IDIQ periods of performance, there are actually two approved rates that are applicable within a given Task Order PoP (see example diagram below).

The specific PPR template column names and data formats for the proposed labor transaction submissions are shown in the example below:

Contract	TaskOrder	TaskPeriod	IDIQPeriod
HHM402-15-D-XXXX	HHM402-15-R-00XX	Base	Base

CLIN	ContractType	PriceGroup	Category
0001	CostPlus	Group 1	Configuration Manager/Specialist-Level 1

HourlyUnits	HourlyRate	Markup
1850	\$35.00	1.0%

Total of Hourly Cost (w/out off-site Markup)	Total of Hourly Cost (includes off-site Markup)
\$64,750.00	\$65,397.50

The definitions of each column in the “TO_Labor” spreadsheet are provided below. (Note: There are no embedded spaces in the column names.)

Column Name	Contents	Field Type
Contract	Contract Number - The E-SITE IDIQ contract number of the submitting vendor (NOT the RFP number). The bidding Vendor is responsible for entering their IDIQ contract number on all the Labor lines being proposed. Any lines on the spreadsheet with a blank Contract # will be ignored during processing—this allows the Vendor to enter other data for their use such as subtotals and not affect STORMS processing.	Text
TaskOrder	Task Order Number – This number will be provided by the E-SITE PMO and will be unique for every Task Order. For PPRs submitted in response to a new Task Order solicitation or Request for Proposal (RFP), the RFP number identified in the solicitation should be used. This value must not be changed in order for the file to process correctly. Note: This element will eventually be changed to the awarded Task Order number in order to submit STORMS expense reports (but that number is not defined until the actual award is made).	Text
TaskPeriod	Task Order Period of Performance (PoP) – Identifies the PoP within the Task Order to which the proposed labor on this line applies. For DIA solicitations, the first period is usually defined as “Base” and each succeeding PoP as “Option #” such as “Option 1”, “Option 2”, etc. Official period names will be identified in the	Text

solicitation; consult the E-SITE PMO and/or the DIA Contracting Officer/Specialist identified in the solicitation for any exceptions to this convention.

IDIQPeriod	IDIQ (Contract) Period in which the work is to be performed.	Text
CLIN	Contract Line Item Number – The RFP will identify the CLINs to be proposed. Each PoP may contain multiple CLINs. Labor Category rates are managed and validated separately for each CLIN so a proposal can provide different rates on separate CLINS as long as they are within the IDIQ rate.	Text
ContractType	<p>Contract Type – This is the type of contract proposed. The text in this column must exactly match one of the approved Contract Types as follows:</p> <ul style="list-style-type: none"> • Cost Plus • Firm Fixed Price • Time and Materials • Labor Hour <p>Use "Cost Plus" for any Cost Contract Type, such as Cost Reimbursement (CR). Use "Firm Fixed Price" for any Fixed Price contract type, such as FPFF, FPAF, FPIF, etc.</p> <p>This list is subject to change, and the instructions and template will be updated and communicated accordingly. Contact the E-SITE PMO with any questions or discrepancies.</p>	Text
PriceGroup	IDIQ Price Group – This equates to the geographical locations where work is being performed. There were seven (7) price groups for the United States and six (6) foreign locations (overseas) in the original IDIQ contracts—more may be added over time, either at the IDIQ and/or the Task Order level – this direction will come exclusively from the Contracting Officer.	Text
Category	<p>Labor Category – This is the labor category group and skill/experience level being proposed. There are 39 IDIQ approved labor categories at various skill/experience levels (0, 1, 2, 3, & 4). Not all skill/experience levels apply to all labor category groups. (Ex: “Cyber Security Officer” only has Level(s) 0, 1, 2, & 3 – it does not have a Level 4. Alternately, “Cybersecurity Systems Engineer” has Level(s) 1, 2, 3, & 4, but does not have a Level 0 option.) Any new labor category groups and/or skill/experience levels applicable to the Task Order being proposed must be approved in advance of the submission by the Contracting Officer, and coordinated with the E-SITE PMO. Otherwise, the labor category will not pass the STORMS proposal validation test.</p>	Text

The Category text must exactly match one of the IDIQ categories or an approved new labor category (see Appendix A for exact strings that can be used). A full list is also included in the PPR template.

HourlyUnits	<p>Total Hours – The consolidated number of hours proposed for this labor category during the period. Hours (and Rates) must be listed individually for each “combination” of Task Order and IDIQ periods that will occur during performance of the Task Order, as illustrated in the diagram on page 5. The number of hours in each line should be allocated appropriately based on the Task Order PoP and IDIQ Period dates. For example, 2000 hours are proposed to be worked during the first Task Order Period “Base”, which runs from 1 September 2016 to 31 August 2017. Since the IDIQ Periods run from 5 December to 4 December each year (with the IDIQ Period “Base” from 5 December 2015 to 4 December 2016), this means there will be two periods of work during the Base period of the Task Order – one from 1 September 2016 through 4 December 2016 (TaskPeriod=Base; IDIQPeriod=Base), and the second from 5 December 2016 through 31 August 2017 (TaskPeriod=Base; IDIQPeriod=Option 1). In this example, the first period is approximately 3 months long, and the second is 9 months long; thus, ~500 of the 2,000 total hours would likely be allocated for the first period, and the remaining 1,500 for the second.</p>	Number
HourlyRate	<p>Hourly Rate of Labor – This is the proposed <u>fully burdened</u> labor rate for one (1) hour of work on the Task Order, regardless of the type of contract (FP, LH, T&M, CP, etc.). For Time and Materials, Fixed Price, and Labor Hour CLINs, the proposed rate must be less than or equal to the Vendor’s not-to-exceed IDIQ rate for the corresponding period of the work being performed or an error will be produced in STORMS.</p> <p>This specific rate applies from the start of the Task Order PoP and remains in effect for the duration of the PoP, unless authorized by a change (i.e., escalation) in the IDIQ PoP rates.</p>	Currency
Markup	<p>Offsite Markup Rate – This percentage markup is applied to the proposed labor rate when the Vendor’s employee will work at a Contractor provided facilities (i.e., not working at a Government provided facility). No other form of markup is allowed since these costs should already be included as part of the fully loaded rate according to the IDIQ award. Markup is not authorized for work to be performed at Government facilities.</p>	Percentage

Separate transactions are required for a Labor Category when more than one Markup rate applies (i.e., work will be conducted at two or more Contractor provided facilities which have different associated Markup costs).

Total of Hourly Cost (without off-site Markup)	Total of Hourly Costs before off-site Markup is applied – The total cost, excluding markup fee for off-site contractor facilities, based on the following formula:	Currency
---	--	----------

$$= (\text{HourlyUnits} * \text{HourlyRate})$$

Total of Hourly Cost (includes off-site Markup)	Total of Hourly Costs with off-site markup percentage applied – Total cost for this labor line calculated as follows:	Currency
--	---	----------

$$= (\text{HourlyUnits} * [(\text{HourlyRate} * (1 + \text{Markup}))])$$

STORMS Processing Rules and Considerations

The following situations apply when processing transactions in STORMS:

- Only one (1) **consolidated** transaction is submitted for each Labor Category where the Period, CLIN, Group, and Markup are the same. STORMS will identify a duplicate transaction error when more than one line has the exact same Labor Category, Period, CLIN, Group, and Markup.
- In the situation where a Labor Category will be hosted at multiple Vendor provided facilities within the same Period, CLIN, and Price Group—only one combined transaction is submitted if the Markup rates are all the same; otherwise, a separate transaction line must be submitted for each different Markup rate showing the correct level of effort applicable to each Markup.
- Excel workbook spreadsheet names and the Column names within the transaction cannot be altered or STORMS will reject the entire spreadsheet.
- **Any row in which the Contract column is blank, is ignored.** This allows comments and subtotals to be included (if desired) as long as this column is blank.
- Additional columns can be added at the Vendor’s discretion when constructing the proposal labor spreadsheet to allow for subtotals, totals and other related information. These columns are ignored by STORMS. Additional columns cannot use any of the reserved STORMS column names.
- Additional worksheets can also be added at the Vendor’s discretion to allow for additional information, such as cost buildup information or breakdowns/summaries grouped by Period of Performance, Location (Group), etc. Additional worksheets cannot use any of the reserved STORMS worksheet names. Additionally, only the information contained in the TO_Labor and TO_Non-Labor worksheets will be imported and validated in STORMS; it is the Vendor’s responsibility to ensure that final price proposal information is reflected in the TO_Labor and TO_Non-Labor worksheets, regardless of any additional supporting data provided in other worksheets.
- The order of the worksheet columns and worksheets does not matter.

- No new Labor Category can be submitted in a transaction unless approved in advance of submission and in writing by the Contracting Officer. Any unrecognized Labor Category will be rejected by STORMS. To avoid this, submit a copy of the approved new Labor Category name (exactly as approved by the Contracting Officer, and exactly how it will be submitted in the proposal) to the E-SITE PMO mail box.

TO_Non-Labor Spreadsheet

The “TO_Non-Labor” spreadsheet contains the set of data which describes the vendor’s proposed non-labor costs for each Task Order period and CLIN.

The specific “TO_Non-Labor” column names and data formats for the proposed non-labor transaction submissions are as follows:

Contract	TaskOrder	TaskPeriod	CLIN	ContractType
HHM402-15-D-XXXX	HHM402-15-R-00XX	Base	0001	Firm Fixed Price

Type	TrackingID	Item	Count	Each
Travel	TR00123	Travel	1	\$3000.00

Indirect	Total Cost
3.0%	\$3090.60

The specific column names and data formats for the proposed non-labor transaction submissions are provided below. (Note: There are no embedded spaces in the column names)

Column Name	Contents	Field Type
Contract	Contract Number - The E-SITE IDIQ contract number of the submitting Vendor (NOT the RFP number). The bidding Vendor is responsible for entering their IDIQ contract number on all the non-labor lines being proposed. Any lines on the spreadsheet with a blank Contract # will be ignored during processing—this allows the Vendor to enter extraneous data such as subtotals and not affect STORMS processing.	Text
TaskOrder	Task Order number – This number will be provided by the E-SITE PMO and will be unique for every Task Order. For PPRs submitted in response to a new Task Order solicitation or Request for Proposal (RFP), the RFP number identified in the solicitation should be used. This value must not be changed in order for the file to process correctly. Note: This element will eventually be changed to the awarded Task Order number in order to submit STORMS expense reports (but that number is not defined until the actual award is made).	Text

TaskPeriod	Task Order Period of Performance (PoP) – Identifies the PoP within the Task Order to which the proposed labor on this line applies. For DIA solicitations, the first period is usually defined as “Base” and each succeeding PoP as “Option #” such as “Option 1”, “Option 2”, etc. Official period names will be identified in the solicitation; consult the E-SITE PMO and/or the DIA Contracting Officer/Specialist identified in the solicitation for any exceptions to this convention.	Text
CLIN	Contract Line Item Number – The RFP will identify the CLINs to be used for non-labor expenses. The non-labor transaction formats are validated and stored in the database based on the CLIN.	Text
ContractType	Contract Type – This is the type of contract proposed. The text in this column must exactly match one of the approved Contract Types as follows: <ul style="list-style-type: none"> • Cost Plus • Firm Fixed Price • Labor Hour • Time and Materials 	Text
Type	<p>Non-Labor Expense Type – This is the type of expense being proposed. The E-SITE IDIQ contract identifies the types of expense which may be proposed. The text in this column must exactly match one of the IDIQ approved non-labor expense types as follows:</p> <ul style="list-style-type: none"> Facilities Fee Hardware-Licenses and Maintenance Housing Materials OEM Payments Relocation Software-Licenses and Maintenance Special Vehicles Transportation of Equipment Travel Tuition <p>STORMS will reject any line which does not have one of these non-labor expense types in this column.</p>	Text
TrackingID	Unique Vendor Non-Labor Tracking Identifier –This is a unique tracking identifier provided by the Vendor and is used as a reference to the non-labor expense submitted on this transaction. When the winning Vendor’s proposal file is loaded into STORMS,	Text

this ID is stored and used for correlating non-labor expenses as they are submitted.

Item	Item Description – This is a description of the proposed non-labor expense. It should be detailed enough for the Contracting Office and COR to understand what is proposed.	Text
Count	Item Count – This is the total number of units proposed for this item.	Integer Number
Each	Cost Each (per Unit) – This is the single unit cost of the item defined on this line. The total cost is not required since it will be computed by STORMS as follows: Count * Each * (1 + Indirect percentage)	Currency
Indirect	Indirect Rate – This is the total of all indirect costs applied to the direct costs, in accordance with corporate accounting rules – including items such as General and Administrative (G&A) expenses, Material Handling fees, and other allowable markups.	Percentage
Total	Total Cost of Item – Calculated as follows: = Count * Each * (1 + Indirect)	Currency

Import a PPR

The import tool is located under the **Imports** section on the left navigation menu.

1. Click the **E-SITE Import PPR** link.

2. **Browse** for the PPR file you would like to upload and click the **Upload Proposal** button.

Note: You must use the E-SITE approved PPR template.

a.

Upload Price Proposal Report (PPR)

b.

Browse... No file selected.

Submit Entire file containing both the labor and ODC sheets even if one of the sheets has no data other than the header row

Upload Proposal

3. A status message will display within the page whether your file was successfully uploaded OR if there were issues encountered.

Upload Price Proposal Report (PPR)

Browse...

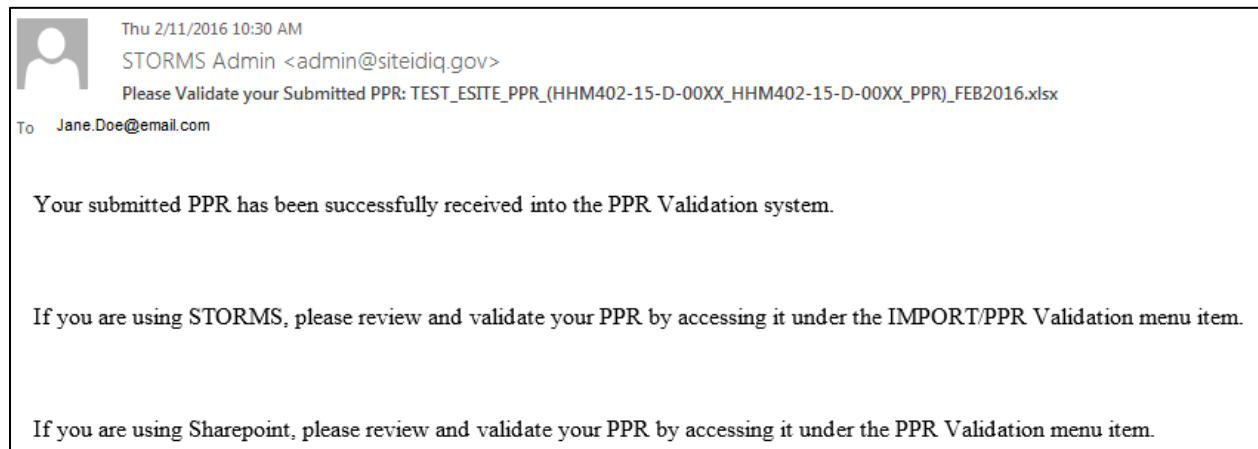

No file selected.

Submit Entire file containing both the labor and ODC sheets even if one of the sheets has no data other than the header row

Upload Proposal

Your File: TEST_ESITE_PPR_(HHM402-15-D-00XX_HHM402-15-D-00XX_PPR)_FEB2016.xlsx has been placed in the queue. You will receive an email once it has finished processing. After you receive an email please select PPR Validation under VALIDATION on the side menu to validate your PPR.

4. You will receive an e-mail when the upload process is complete.

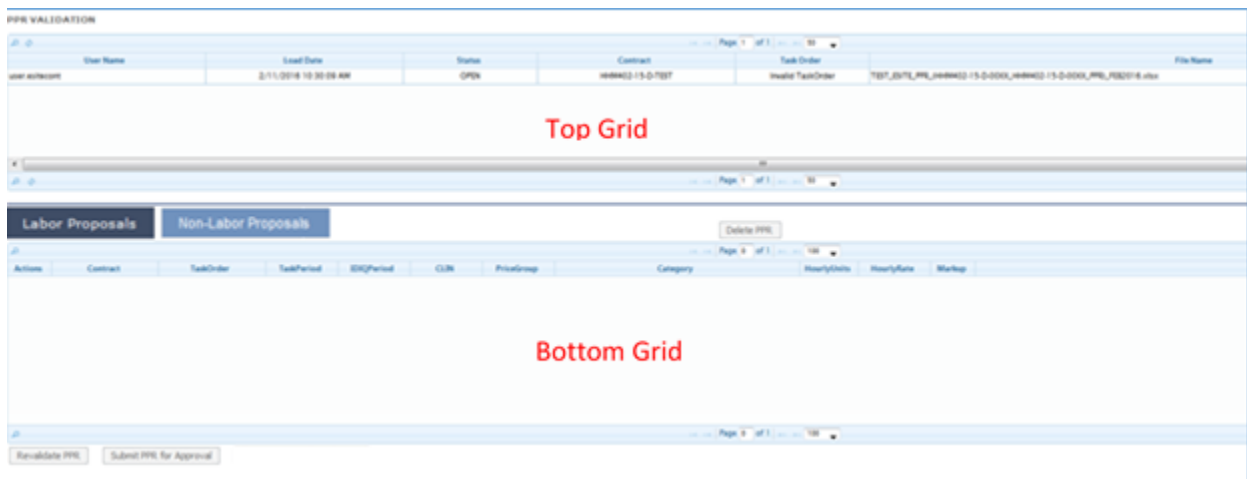

Validate a PPR

Once the PPR file has been successfully uploaded, you need to review and validate both the Labor and Non-Labor Proposals tabs before the PPR can be submitted.

1. Select the **E-SITE PPR Validation** link under the Validation section on the left navigation menu.

2. The PPR Validation page displays two sections: (1) Top grid lists the PPR files that have been uploaded by the User (only the User's uploaded files will be visible), (2) Bottom grid displays the PPR you select from the top grid.

3. Select the PPR you would like to validate in the top grid. The data associated with the PPR you selected will display in the bottom grid with any errors highlighted in red. All errors must be corrected before submitting the PPR file. The Labor and Non-Labor proposals are displayed in separate tabs.

The screenshot displays a software interface for PPR (Proposal Preparation Request) validation. It consists of two main sections: a top grid for selecting a PPR and a bottom grid for reviewing its details.

Top Grid: This table lists multiple PPRs. The first row is highlighted in yellow. A red arrow points from the 'File Name' column of this row to the 'Delete PPR' button in the bottom grid.

File Name	Lead Date	Status	Contract#	Task Order	File Name
PPR-001	2/15/2018 2:14:15 PM	OPEN	000001-15-0-0010	TBD-0001	000001-15-0-0010_PPR.xls
PPR-002	2/15/2018 12:08:07 PM	OPEN	000002-15-0-0010	TBD-0001	000002-15-0-0010_PPR.xls
PPR-003	2/15/2018 2:58:07 PM	SUBMITTED	000003-15-0-0010	TBD-0001	000003-15-0-0010_PPR.xls
PPR-004	2/15/2018 12:08:07 PM	OPEN	000004-15-0-0010	TBD-0001	000004-15-0-0010_PPR.xls

Bottom Grid: This section is divided into two tabs: 'Labor Proposals (17 Errors)' and 'Non-Labor Proposals (4 Errors)'. The 'Labor Proposals' tab is active, showing a list of items with columns for 'Contract', 'Task Order', 'Task Period', 'BKG Period', 'Cost', 'Contract Type', 'Description', 'Category', 'Hourly Rate', and 'Daily Rate'. Several rows are highlighted in red, indicating errors. A red arrow points from the 'Delete PPR' button in the top grid to the 'Delete PPR' button in the bottom grid.

Contract	Task Order	Task Period	BKG Period	Cost	Contract Type	Description	Category	Hourly Rate	Daily Rate
000001-15-0-0010	TBD-ABC	0001	0001	0001	Time and Materials	GROUP 3	CONFIGURATION MANAGER/SPECIALIST LEVEL 2	1234.00	\$1234.00
000002-15-0-0010	TBD-ABC	0001	0001	0001	Time and Materials	GROUP 3	CYBERSECURITY OFFICER LEVEL 2	1234.00	\$1234.00
000003-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	SYSTEM ADMINISTRATOR LEVEL 4	1234.00	\$1234.00
000004-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	INFORMATION TECHNOLOGY DATA ANALYST LEVEL 1	1234.00	\$1234.00
000005-15-0-0010	TBD-ABC	0001	0001	0001	Time and Materials	GROUP 3	STORAGE ADMINISTRATOR LEVEL 1	1234.00	\$1234.00
000006-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT MANAGER LEVEL 1	1234.00	\$1234.00
000007-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000008-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000009-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000010-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000011-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000012-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000013-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000014-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000015-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000016-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00
000017-15-0-0010	TBD-ABC	0001	0001	0001	Fixed Price	GROUP 3	PROJECT SCHEDULER LEVEL 1	1234.00	\$1234.00

At the bottom of the interface, there are buttons for 'Resubmit PPR', 'Submit PPR for Approval', and a status message: '1 of 17 of the 252 Proposal Rows Contain Errors. Please Correct the Errors and Resubmit.'

16 of the 16 Proposal Rows Contain Errors. Please Correct the Errors and Revalidate.

If there are errors, the cell with the error will be highlighted in red. If you hover over the cell, you will see a detailed error message.

ERROR: Reduce rate to comply with associated period of performance and CLIN

Edit a PPR

1. Click the  icon in the *Actions* column next to the row you would like to edit.

Labor Proposals (13 Errors)		Non-Labor Proposals (4 Errors)	
+ Add New Row Export to Excel			
Actions	Contract	TaskOrder	TaskPeriod
	HHM402-1 5-D-TEST	 TBD-TO_TASK	 BASE
	HHM402-1 5-D-TEST	 TBD-TO_TASK	 BASE
	HHM402-1 5-D-TEST	 TBD-TO_TASK	 BASE

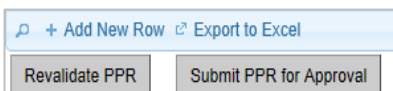

2. After you have made changes to the row, click the  icon to save the data.

	HHM402-1 5-D-TEST	TBD-TO_TASK	OPTION 1
	HHM402-1 5-D-TEST	 TBD-TO_TASK	 BASE

3. After all changes have been made, click the **Revalidate PPR** button at the bottom of the grid. If there are still errors, they will be highlighted in the grid. If the data is valid, the message at the bottom of the grid will display:

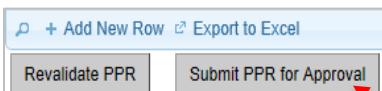

0 of the PPR Rows Contain Errors.

+ Add New Row Export to Excel

Revalidate PPR Submit PPR for Approval

4. After all of the errors have been corrected, click the **Submit PPR for Approval** button at the bottom of the grid. The Status column next to the PPR you submitted will change from **OPEN** to **SUBMITTED** in the top grid.

+ Add New Row Export to Excel

Revalidate PPR Submit PPR for Approval

Note: Upon award, STORMS will only maintain the Task Order price data from the winning Vendor.

Export to Excel

1. Click the  button.

2. Make changes to the file and reimport the file. Refer to the **Import a PPR** section of this document.

Delete a PPR

Contact your **Portfolio Manager** if you need to delete your PPR from the system. The **Status** column in the grid will display **LOCKED** status indicating no further edits are permitted for the specified PPR file.

Please note, it is not necessary to delete your existing PPR file in order to upload a new PPR file. The system has not processed your file until you have validated and submitted for approval.

APPENDIX A – ABBREVIATIONS

Abbreviation	Definition
CLIN	Contract Line Item Number
IDIQ	Indefinite Delivery/Indefinite Quantity
ODC	Other Direct Cost
OTSS	Outside Technical Support Services
PoP	Period of Performance
PPR	Price Proposal Report
RFP	Request for Proposal
